“Do you want to know your Lord’s meaning in this? Be well aware: love was his meaning. Who showed you this? Love. What did he show you? Love. Why did he show it? For love. Hold fast to this...”

Julian of Norwich, Revelations of Divine Love, Chapter 86

FRIENDS OF JULIAN

To celebrate the 650th anniversary year of Julian of Norwich, the Friends of Julian are hosting this unique exhibition looking at her life and work through the eyes of contemporary artists.

By looking at modern interpretations of her pictures we hope that visitors will enjoy this exploration of her conclusion that ‘Love is the Meaning.’ The Friends of Julian is a charity dedicated to exploring Julian’s book *‘The Revelations of Divine Love’* and working with fellow pilgrims to grow in the knowledge and love of God.

Take a walk into a different world this autumn, the world of Julian, visionary and the first woman to write a book in English.

This exhibition leads you on a short walk between three Norwich churches, the places most connected with Julian when she lived in Norwich 650 years ago.

Inside the venues you will find artworks that truly challenge you to look again at Julian's words.

Henna Paasonen

Genista Anahita

Whatever your background, her writings, so radical for their time, have something to say about life and our priorities. She writes of Jesus as our Mother, she writes of the importance of looking after every single creature and plant because they are made by love and she sees in all her visions, overwhelmingly, that love is important.

In the three churches you'll find stone carving, paint, prints, stained glass, interactive light and sound installations – art that invites you to play and to think.

The artists encourage you to enter the 'pictures' behind Julian's words and take a new look at this famous writer and visionary.
